Questions for the hospital

1. Has anyone observed her setting up and taking her own medications (for example with a pill box) since the delirium improved? Could OT or nursing document this before discharge?
2. What was her orientation on the most recent assessments? The notes show AOx3 on 10/04, AOx4 on 10/05 and disorientation overnight 10/05-10/06.
3. Could OT assess showering and toileting hygiene before discharge?
4. Is she on any isolation precautions?
5. Can you send the CalAIM authorization once the plan responds?
6. Will she leave with a 30-day supply of her medications?
