History and Physical - page 1

HISTORY AND PHYSICAL

Date of Service: 06/08/2026
Attending: Nora Achterberg, MD (Hospital Medicine)

Chief Complaint

"My sugar has been over 400 on the shelter meter" x 1 week, polyuria, thirst

HPI

58 y/o M with T2DM (dx 2019) experiencing homelessness (sleeps at Example Shelter, Santa Ana, x 8 months) presents with 1 week of polyuria, polydipsia and fatigue after running out of metformin 3 weeks ago. Also reports a sore on the bottom of his right foot x 3 weeks, painless, no drainage, no fever. In ED: POC glucose 438, anion gap 11, serum beta-hydroxybutyrate 0.3 (negative). Not in DKA. No HHS (serum osm 296).

PMH

- T2DM, last A1c unknown prior to this admission
- Peripheral neuropathy, bilateral feet
- Hyperlipidemia

PSH

- None

Social History

Homeless x 8 months, staying at shelter. Former smoker (quit 2020). Denies alcohol or drug use.

Allergies

Sulfa (hives)

Home Medications

- Metformin 1000 mg PO BID (not taking x 3 weeks)
- Atorvastatin 20 mg PO daily

-- FICTIONAL DEMO RECORD - not a real patient --

History and Physical - page 2

Physical Exam

VS: T 98.9F, HR 96, BP 132/80, RR 16, SpO2 98% RA
Gen: NAD, AOx4
CV: RRR, no m/r/g
Lungs: CTAB
Skin/Feet: R plantar 1st metatarsal head ulcer approx 1.6 x 1.3 cm, shallow, clean base, no erythema, no warmth, no drainage, no odor. Probe-to-bone negative. Decreased monofilament sensation bilat. DP pulses 2+ bilat.
Psych: calm, cooperative, linear thought process

Assessment / Plan

58M with uncontrolled T2DM with hyperglycemia without DKA, and non-infected neuropathic R plantar foot ulcer.
1. Hyperglycemia - IVF, resume metformin, add sitagliptin; POC glucose AC/HS. No insulin planned unless persistent >300.
2. R foot ulcer, non-infected - X-ray R foot to r/o osteomyelitis; wound care consult; offloading post-op shoe; no antibiotics indicated
3. MRSA nares PCR per protocol
4. Dispo - CM consult; homeless, anticipate recuperative care referral
DVT ppx: enoxaparin 40 mg SC daily
Isolation: None - standard precautions
Code status: Full
Electronically signed: Nora Achterberg, MD 06/08/2026 21:30

Physical therapy evaluation

PHYSICAL THERAPY EVALUATION

Date: 06/10/2026 13:00
Dx: R plantar foot ulcer, peripheral neuropathy

Prior Level of Function

Independent ambulation, used a single-point cane outdoors for the past year.

Assessment

Bed mobility: Independent
Sit<>stand: Independent
Transfers: Independent
Gait: 150 ft with single-point cane in R post-op shoe, modified independent, no rest breaks, steady
Stairs: 6 steps with rail, modified independent
Balance: static good, dynamic good-

Plan / Recommendation

Safe for d/c to recuperative care with own cane and post-op shoe. Uses cane independently. No PT follow-up needs.
Signed: H. Varga, PT, DPT

-- FICTIONAL DEMO RECORD - not a real patient --

Occupational therapy evaluation

OCCUPATIONAL THERAPY EVALUATION

Date: 06/10/2026 15:15

ADLs

Grooming: Independent
UB dressing: Independent
LB dressing: Independent, dons post-op shoe independently
Toileting: Independent
Shower: Independent seated on shower bench, keeps R foot dressing dry with cast cover; gathers own supplies
Cognition: AOx4, follows multi-step commands, manages own meds with pill organizer

Recommendation

D/c to recuperative care. No further OT needs.
Signed: P. Okonkwo, OTR/L
