IHH admission criteria (39 applicable, 24 not applicable or superseded)

Rule	Requirement	Status	Finding	Pages
General				
GEN-2	Lives alone, no supports	Unknown	Patient is unhoused rather than living alone; not separately assessed (GEN-1 already met).	–
GEN-1	Unhoused and too ill to recover	Met	Unhoused for 7 months with uncontrolled diabetes needing a place to stabilize.	p5✓
GEN-3	Re-hospitalization risk	Met	Auth form checks at risk of hospitalization/re-hospitalization.	p3✓
ADLs				
ADL-1	Independent ADLs	Unknown	Chart documents independent walking and showering only; full ADLs not described.	–
ADL-3	Independent toileting	Unknown	Toileting is not addressed in the chart (form says continent).	–
ADL-2	Independent hygiene	Met	Nursing documents she showers independently.	p8✓
Mobility				
MOB-2	PT/OT notes sent	Not met	No PT/OT notes in the packet; the only mobility documentation is one nursing line.	p8✓
MOB-3	Walks 100 ft	Unknown	Walks independently in the hallway, but distance (100 ft) is not documented and there is no PT eval.	–
Mental Health				
MH-1	Mentally stable on meds	Unknown	No mental health assessment in chart; form says no mental health diagnosis.	–
MH-2	No suicidal ideation	Unknown	Suicidal ideation is not addressed.	–

Questions for the hospital

1. Glargine was first given 06/09 at 21:00; could discharge move to after 21:00 on 06/10 (or the next day) so she is past 24 hours on insulin?
2. After the 06/10 13:00 educator session, can you send documentation that she drew up/dialed and self-injected her insulin pen correctly?
3. Has she shown she can use the new glucometer on her own?
4. Can you send the 06/10 glucose readings after 07:40, so we have 5 consecutive values that show stabilization?
5. Can you send PT/OT notes or a nursing note confirming she can walk at least 100 ft and is independent with toileting?
6. Has the patient had any suicidal ideation, hallucinations, aggressive behavior, or history of conservatorship or Full Service Partnership (FSP)?
7. Is the patient on any isolation precautions?
